

OFFICE OF THE GOVERNOR  
STATE OF HAWAII

**TWENTIETH PROCLAMATION  
RELATED TO THE COVID-19 EMERGENCY  
QUARANTINE FOR TRAVEL BETWEEN COUNTIES**

By the authority vested in me by the Constitution and laws of the State of Hawai'i, to provide relief for disaster damages, losses, and suffering, and to protect the health, safety, and welfare of the people, I, DAVID Y. IGE, Governor of the State of Hawai'i, hereby determine, designate and proclaim as follows:

**WHEREAS**, as of May 7, 2021, COVID-19 continues to endanger the health, safety, and welfare of the people of Hawai'i and a response requires the serious attention, effort, and sacrifice of all people in the State to avert unmanageable strains on our healthcare system and other catastrophic impacts to the State;

**WHEREAS**, as of May 7, 2021, the recorded number of cases and deaths has continued to increase, with more than 33,000 documented cases of COVID-19 in the State and 486 deaths attributed to this disease;

**WHEREAS**, on August 6, 2020, I signed the Eleventh Proclamation Related to the COVID-19 Emergency Interisland Travel Quarantine because there was a compelling need to mitigate the spread of COVID-19 between and among the Islands of this State and because it was necessary to avoid overwhelming the healthcare systems in certain vulnerable areas of the State, including on the Islands of Kaua'i, Hawai'i, and the Islands comprising the Counties of Maui and Kalawao;

**WHEREAS**, on September 22, 2020, I signed the Thirteenth Proclamation Related to the COVID-19 Emergency, which authorized the counties to adopt a negative test exception to the Interisland Travel Quarantine;

**WHEREAS**, on April 2, 2021, the Centers for Disease Control and Prevention (CDC) determined that fully vaccinated travelers are less likely to get and spread COVID-19, and that fully vaccinated travelers do not need to self-quarantine, although they should still follow CDC's recommendations for traveling safely including wearing a mask over their nose and mouth, staying six (6) feet from others and avoiding crowds, and washing hands often or using hand

sanitizer;

**WHEREAS**, on April 9, 2021, I signed the Nineteenth Proclamation Related to the COVID-19 Emergency, which continued the mandatory self-quarantine for travel from within the State to the counties of Kaua'i, Hawai'i, Maui and Kalawao, but also provided that upon the establishment of an exception by the Director of the Hawaii Emergency Management Agency (Emergency Management), persons who, prior to departure to the State, upload into the State's Safe Travels program or otherwise provide validation that they have completed a vaccine regimen approved by the Department of Health (DOH), shall not be subject to self-quarantine;

**WHEREAS**, as of May 7, 2021, the State has access to data for the purpose of validating vaccination information of persons vaccinated in the State of Hawai'i, but the process is not fully automated and the State continues to develop a means to access data for the purpose of validating vaccination information of persons vaccinated outside of the State;

**NOW, THEREFORE**, I, DAVID Y. IGE, Governor of the State of Hawai'i, hereby authorize the Director of Emergency Management to establish an exception to the Quarantine for Travel Between Counties for persons who, prior to departure, complete a DOH-approved vaccine regimen in the State of Hawai'i and provide validation as well as consent and authorization to access vaccination information as set forth in the State's Safe Travels program and in accordance with the Vaccination Information Rules and Penalties attached hereto as Exhibit A.

To the limited extent necessary to effectuate this vaccination exception, and only as expressly allowed by the consents and authorizations voluntarily provided as part of the Safe Travels program by persons wishing to apply for this vaccination exception, DOH and providers of vaccinations may use and disclose protected health information as expressly allowed in the State's Safe Travels program.

This vaccination exception to the Quarantine for Travel Between Counties is in addition to any negative test exception available for travel to counties that have adopted such an exception for persons traveling within the State.

This vaccination exception to the Quarantine for Travel Between Counties, or any exception or exemption authorized by any proclamation, does not affect or in any way impede or supersede the authority of the CDC or DOH, pursuant to sections 321-1 and 325-8, Hawaii Revised Statutes (HRS), to require persons to quarantine if they test positive for COVID-19 or if they are a close contact of a person confirmed positive for COVID-19, regardless of whether the persons were fully vaccinated or subsequently obtained negative test results. This vaccine exception also does not affect or in any way impede or supersede the DOH Emergency Rules for Travel to Kalawao County, effective April 19, 2021 and attached hereto as Exhibit B.

Pursuant to section 127A-29, HRS, any person who intentionally, knowingly or recklessly engages in conduct that violates the provisions provided herein, or any applicable State or county rule, directive or order related to travelers, including the completion of any document required by the State or any county, shall be guilty of a misdemeanor, and upon conviction, the person shall be fined not more than \$5,000, or imprisoned not more than one year, or both.

The provisions set forth in this Proclamation are in addition to and not in derogation of the provisions set forth in the Nineteenth Proclamation, and will run concurrently with the provisions set forth in the Nineteenth Proclamation. However, to the extent any language in the Nineteenth Proclamation conflicts with the requirements of this vaccination exception to the Quarantine for Travel Between Counties – as set forth in the State’s Safe Travels program or Exhibit A appended hereto – such language is superseded by this Proclamation and the Safe Travels program requirements established by the Director of Emergency Management, which are available at <https://hawaiicovid19.com/>.

If any provision of this Proclamation is rendered or declared illegal for any reason, or shall be invalid or unenforceable, such provision shall be modified or deleted, and the remainder of this Proclamation and the application of such provision to other persons or circumstances shall not be affected thereby but shall be enforced to the greatest extent permitted by applicable law. The provisions of this Proclamation will be broadly construed in light of their purposes, and in view of the purposes of HRS chapter 127A as set forth in section 127A-1, HRS.

No provision of this Proclamation, or any rule or regulation hereunder, shall be construed as authorizing any private right of action to enforce any requirement of this Proclamation, or of any rule or regulation. Unless the Governor, Director of HIEMA, or their designee issues an express order to a non-judicial public officer, no provision of this Proclamation, or any rule or regulation hereunder, shall be construed as imposing any ministerial duty upon any non-judicial public officer and shall not bind the officer to any specific course of action or planning in response to the pandemic or interfere with the officer's authority to utilize his or her discretion.

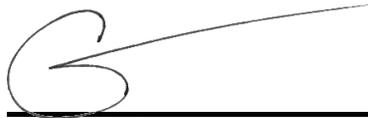

This Proclamation does not apply to the United States government.

**I FURTHER DECLARE** that this Twentieth Proclamation Relating to the COVID-19 Emergency Quarantine for Travel Between Counties shall continue for the duration of the disaster emergency relief period set forth in the Nineteenth Proclamation, which continues through June 8, 2021, unless terminated or superseded by a separate proclamation, whichever shall occur first.

Done at the State Capitol, this  
7<sup>th</sup> day of May 2021.

## DEPARTMENT OF HEALTH EMERGENCY RULES FOR TRAVEL TO KALAWAO COUNTY

The Department of Health finds that an imminent peril to public health and safety requires the adoption of a rule upon less than thirty days' notice of hearing for the following reasons.

The COVID-19 pandemic continues to be active worldwide and especially in the United States. Governor David Ige, in his Nineteenth Proclamation Related to the COVID-19 Emergency, dated April 9, 2021, continued quarantine restrictions for travel between counties.

Pursuant to chapter 326, Hawaii Revised Statutes (HRS), the Department of Health shall establish and maintain facilities and services for the care and treatment of persons with Hansen's disease and persons who were institutionalized for segregation by order of the Department of Health because of Hansen's disease. Moreover, the Department of Health shall provide adequate health care and other services to the patient residents of Kalaupapa for the remainder of their lives and shall permit any patient resident of Kalaupapa who desires to remain there to do so as long as that patient may choose.

The patient residents of Kalaupapa average 87 years in age and have serious underlying medical conditions that put them at extremely high risk of death from Coronavirus Disease 2019 (COVID-19) or of very severe disability if they survive after acquisition of COVID-19. Although long-term care facilities throughout the State have had the most stringent protective measures to prevent acquisition of COVID-19, cases within these settings continue to be of great concern because of the heightened vulnerability of the residents. The majority of these cases were brought into these settings by workers who were infected in the community. Control of community spread within the County of Kalawao is essential to prevent illness and death from COVID-19 infection among vulnerable individuals, such as the elderly patient residents, who are active within the Kalaupapa Settlement.

Per section 326-34(a), HRS, the county of Kalawao shall consist of that portion of the island of Molokai known as Kalaupapa, Kalawao, and Waikolu, and commonly known as the Kalaupapa settlement and shall not be part of the county of Maui.

## EXHIBIT B

Section 326-34 (b), HRS, provides: "The county of Kalawao shall be under the jurisdiction and control of the Department of Health and be governed by the laws, and rules relating to the department and the care and treatment of persons affected by Hansen's disease, except as otherwise provided by law." Chapter 326, HRS, established facilities and services in Kalaupapa for the care and treatment of persons with Hansen's disease, which is the primary purpose for the Kalaupapa Settlement.

Pursuant to section 91-3(b), HRS, the emergency rules are to be effective for a period not longer than 120 days from the date the Governor approves them to protect the health and safety of the patient residents of Kalaupapa and Kalawao County.
